What Will the Bank of England Do This Morning?

WALL STREET AWAITING THE EVEN

The Stock Market Steady and Dull.

SPECULATION AT A STAND-STILL

Money and Foreign Exchange Easier.

A NEW POOL IN ST. PAUL.

WALL STREET, WEDNESDAY, Oct. 23-6 P. M. en 'Change to-day cotton was in moderate de d and easy, but not quotably lower. Flour was irregular and somewhat easier. Wheat was teady and corn firmer. COMPARISON OF THE EXPORTS.

The following shows the exports, exclusive of specie, from New York to foreign ports for the week ending October 22 and since the beginning of

Tor the week. \$4,337,058 \$5,276,054 \$5,366,854 Prov. reported. 144,756,201 180,088,775 183,703,156 Mince Jan. 1..\$149,092,259 \$194,364,829 \$189,089,980 MONEY BASIER.

The money market was easier, the extreme rate of the day for call loans having been 7 per cent oin interest and that exceptional. Before three Pelock loans were made at as low as per cent, nd more were offered to the close at the same ate. For time loans the rate is plump 7 per cent and a commission. Yesterday a loan of this kind made at 7 per cent and a commission of % of me per cent for the interval to the close of the ear. Prime paper was quoted 9 a 12 per cent disant. There was a great deal of discussion as to e probable action of THE BANK OF ENGLAND

ors at their regular weekly meeting to rrow (Thursday), and the chances seem about al for and against an advance of the discount . On one hand money in the open market in ondon is reported tighter, and on the other we ind an improvement in consols and five-twenties likely to take place with a belief in an advance of the discount rate. However, the question will ts to work in the morning. Meantime the fol ing extract from the organ of the Open Stock nge of London—The Circular, of October 12hrows considerable light upon the situation and he speculative movement in

THE LONDON MARKET:

As yet but little is doing in the stock markets.
Operations have been checked by the continued rise of the bank rate and the dread entertained by many of dear money in the future. The best opinions are in conflict whether the tendency will continue to be upwards, or a sharp reaction follow the present rapid advance. It is surprising that the laws which regulate the how of currency cannot be better applied by trained financiers and experienced by trained financiers and experienced by trained financiers and experienced by trained financiers to be our best gaide in the future. The normal condition is a period of cheap money, followed by a period of dear money, reverting again to cheap money and again changing, while there are lesser ebbs and flows involved in each period—the wave running in and running out—while the tide advances or rotires. We have had a full period of cheap money, and it would be reasonable to expect that the turn had come and the rate was on the rise. But there will be fluctuations, which lead to erromeous conclusions, though the rise, carefully watched over a lengthened period, will be found meous conclusions, though the rise, carefully watched over a lengthened period, will be found to be steady. We conclude, then, that the rate of discount has an upward tendency and there is a period of dearer money before us, though the Bank of England may soon have to reduce the rate; and we may instance the fact as an indication that the Bank is stronger now than it was at the corresponding period of last year, with more builion and a larger reserve; yet the rate is 6 to-day, while then it was 5, which shows the advance of the tide.

PORRIGN EXCHANGE STEADY. The foreign exchange market was nominally lower to the extent of a quarter per cent, but actual business was at pretty steady rates, although during the greatest scarcity of cash gold prime staty-day sterling was accessible at 108½. The following shows the new grade of rates:-Sterling, pixty days commercial, 108 a 108¾; do. do., good to prime bankers', 108¾ a 108¾; do. short sight, 110 a \$10%; Paris, sixty days, 5.32% a 5.27%; do. short sight, 5.23% a 5.22%; Prussian thalers, 71% a 72; Antwerp, 5.28% a 5.22%; Switzerland, 5.27% a 5.21%; urg, 35% a 35%; Amsterdam, 40 a 40%; Prankfort, 40% a 41%; Bremen, 95 a 95%. GOLD STRONG—112% A 113%.

The gold market was strong, owing to purchases by the "shorts," large numbers of whom closed els contracts in preference to continuing paying the extravagant rates exacted for the use of gold, and the price advanced from 112% to 113%. The Bank of Montreal clique "squeezed" the loan market again, and compelled the "bears" to pay, in two or three instances, as high as one per cent (equivalent to 365 per cent per annum) for the use of gold in making this afternoon's deliveries. One pum of a million borrowed at this excessive rate of Interest was put down to the account of

A. T. STEWART, the transaction having been made by that gentleman's brokers. The Bank of Montreal clique seemed to inspire a good deal of speculation in the borrowing of gold, and were helped in their efforts by some of the surviving members of the gold clique so sigmally routed by Mr. Boutwell a little while ago. After three o'clock loans were made at % a % per cent for to-morrow. It is reported from Canada that the business men of the province are very indignant at the gold gambling conduct of the officials and agents of the Bank of Montreal, and demand that the money loaned out in this market should be brought

where money is tight and scarce. Possibly it is this clamor that has afforded a pretext for the pretended withdrawal from use here of the gold of the bank. Their plan of operations is to withhold the gold early in the day, and then, when rates are up, lend as much as they can. They have to tie up about three quarters of what they control in order to get a quarter per cent on the rest. The Suband \$7,700 in redemption of redeemed five-twenties.

COURSE OF THE MARKET

s shown in the following fluctuations of the day:—	
10 A. M. 113 10 203 A. M. 113½ 11 A. M. 112½ 12 M. 113 2 P. M. 113½ 1:44 P. M. 113½	2 P. M. 113 ½ 2:37 P. M. 113 ½ 3 P. M. 113 ½ 3:55 P. M. 113 ½ 4 P. M. 113 ½ a 113 ½

In the gold loan market the rates ranged from 1-32 to 1 per cent per day for borrowing. The operations of the Gold Exchange Bank were as fol-

The European steamer took out \$77,319 in silver.

Stipulations have been entered into by the New Jersey Central Railroad Company and the purchasers of the recently authorized convertible bonds of that company, which stipulations are also to bind Lackawanna Company shall not be held in any way responsible for them, and that the bonds shall not be in any way a lies upon the Lackawanna Rail-road should the impending litigation result in a severance of the consolidation arrangement of the

The following were the bids for the city bank shares:-New York, 133; Merchants', 115; Mechanics, f31; City, 265; Phenix, 101%; Tradesmen's, 148; Gallatin National, 119; Seventh Ward, 97; Commerce, 116; Broadway, 260; Mercantile, 136; American Exchange, 114; Bank of North America, 105; Irving, 125; Metropolitan, 134; Citizens', 135; Market, 125; Corn Exchange, 128; St. Nicholas, 114; Marine, 165; Commonwealth, 83; Importers and Traders', 169; Park, 150; Manufacturers and Merchants', 100; New York National Exchange, 97; Central National, 99; Tenth National, 85; Oriental, 170; Gold Exchange, 105; German-American, 101%.

GOVERNMENTS STRONG. The government list sympathized rather more closely with the gold premium and was higher and firm, particularly after the government purchase of a million of five-twenties, which was effected at 112.48 a 112.74, out of offerings of \$2,424,800, ranging from 112.48 to 112.99. The currency sixes were buoyant, regardless of the gold quotation, and advanced to 113%. According to the Calcutta Englishman, of September 10, "an attempt is being

made to introduce the American five per cent funded loan on the Indian market." This is rather remote honor to American credit and might be more substantial did THE POLICY OF CONGRESS

favor a wider knowledge of us in the world through the agency of a more expanded commerce. The following were the closing prices for the government list:-United State currency sixes, 113% a 113%; do. do., 1881, registered, 114% a 115; do. do., coupon, 116% 11634; do., five-twenties, registered, and November, 112½ a 112½; do. do., 1862, coupon, do., 115½ a 116½; do. do., 1864, do., do., 115% a 116%; do. do., 1865, do. do., 116 a 116%; do. do., 1867, registered, January and July, 114% a 114%; do. do., 1865, coupon, do., 114% a 114%; do. do., 1867, do. do., 115 a 115½; do. do., 1868. do. do., 114½ a 115; do., ten-forties, registered, 108½ a 108½; do. do., coupon, 108½ a 108½; do. fives of 1881, registered, 109% a 109%; do. do., coupon, 110% a 111%.

SOUTHERN SECURITIES QUIET.

The Southern State bonds were less active and the Tennessees were a shade heavy at the boards, but closed up firmer. The others were mostly steady, excepting the new South Carolinas, which were a trifle lower, with a disposition to sell them. The following were the closing prices:-Tennessee, ex coupon, 75 a 75%; do., new, 75 a 75%; Virginia, ex coupon, 44 a 50; do. registered stock, old, 38 a 40; do. sixes, consolidated bonds, 5334 a 5434; do. deferred scrip, 15 a 16; Georgia sixes, 74 a 78; do. sevens, 85 a 88; North Carolina, ex coupon, 33½ a 34; do., to North Carolina Railroad, 44 a 46; do. funding, 1866, 22 a 25; do. do., 1868, 21 a 24; do. new, 20 a 23; do. special tax, 12 a 15; Missouri sixes, 93 a 931/4; do. Hannibal and St. Joseph, 90 a 92; Louisiana sixes, 53 a 58; do. new, 49 a 55; do. levee sixes, 50 a 56; do. do. eights, 70 a 75; do. do. eights, 1875, 70 a 78; Alabama fives, 58 a 63; do. eights, 83 a 86; South Carolina sixes, 50 a 60; do. new, January and July, 2614 a 2634; do. do., April

There was a pause in the speculative movement at the Stock Exchange and a greatly reduced amount of business, the market remaining pretty weak tendency and a decline of some extent in Pacific Mail, which stock threatened to break par and nad got down as far as 100%, when the necessities of the pool, who, for the sake of the loans advanced upon their holdings, are compelled to keep the price up, forced them to rally it back to 102, the impetus given by the

COVERING OF SHORT SALES sending it on to 102%. St. Paul was strong, with an advance to 57% on purchases by a new pool, who have based their speculation on "puts" bought at about 55 a 56 per cent. Ohios were strong, also, and sold at 47. Harlem dropped off to 111%. Canton advanced to 107, owing to the departure for Baltimore of Messrs. Drew, Baylis and Robinson, of the Board of Directors, the object of their visit being the negotiation of further sales of the company's lands. As the venerable Daniel Drew stepped aboard the Jersey train he called back to "Jakey" not to let the boys put them Wayboeh sheers below 70% while he was away. The "CORNER" IN GOLD

and the uncertainty as to the action of the Bank of England with reference to the discount rate checked business and restrained speculation. The "corner" in gold has caused the suspension of operations in many departments of down-town trade. The reaction and dulness on the Stock Exchange were in marked contrast to the buoyancy and activity recently prevailing there. At the close Northwest preferred was pressed for sale pretty freely and de-

#### COMMERCIAL REPORT.

Cotton was in Fair Demand and About Steady; Receipts at the Ports, 18,018 Bales-Flour Irregular-Wheat Steady-Corn Firmer-Pork Better-Sugar Active and Firm-Naval Stores Firm-Petroleum Active and Firm-Freights Steady-Whiskey Unchanged. WEDNESDAY, Oct. 23-6 P. M.

Business, though not especially active, was by no means slow to-day, and presented about as large an aggregate as usual. The export movement was slower than it had been for some time past, and as a natural consequence this was reflected in the freighting and chartering business, which is very decidedly in the interest of shippers, as compared with two or three weeks ago-when both freights and charters were considerably dearer. Still there continues a fair export movement in all the leading articles, while the probabilities are that there will be little if any diminution in the export business for some time to come. Cotton and breadstuff will undoubtedly be wanted all through the Winter, especially for the United Kingdom; hence a good, lucrative trade is confidently expected for the Winter months. To-day the movement on Change was fair. Flour was taken for export to some extent. Wheat was duil, but steady. Corn was in speculative demand and dearer. Provisions were generally quiet, but firm. Groceries were quiet, excepting for sugar, which was in good de mand at full prices. Petroleum continued active and firm. Naval stores were in better demand and firmer, and whiskey remained firm.

COFFEE.-The market to-day was quiet for all descriptions, yet full prices were current, although descriptions, yet full prices were current, although the sales were confined to jobbing lots. We quote:—Ordinary cargoes, 18½c. a 16c.; far, 16½c. a 16c.; good. 17c. a 17½c.; prime, 18c. a 18½c., gold. 60 and 90 days; Maracaibo, 18c. a 18c.; Arc. a 18½c.; St Domingo (in bond), 14c.; Java, 18c. a 19½c.; gold.
Corrow.—The market for cotton on the spot and to arrive was quiet. Without material change in values, a tendency to lower figures was evinced by a disposition on the part of holders to meet buyers. Further deliveries were somewhat irregular, closing, however, somewhat steadler. The sales sum up as follows:—Smethat steadler.

quote:—
Cuba—Centrifugal and mixed 19c. a 29c. 20c. a 29c. Clayed.

Mr. Gustave Leo will continue the business under the same name of the Metallic Show Card Company, assuming all liabilities and collecting all accounts of the late firm.

NEW YORK, Oct. 18, 1872.

#### BOARD OF HEALTH.

At the regular meeting of the Board of Health,

held yesterday afternoon, a petition was handed in signed by three thousand citizens, thanking the Commissioners for relieving the people from the old and unhealthy system of excavating sinks and introducing a clean and sanitary manner of doing the same work. Among the names on the list were those of Commodore Vanderbilt and George Law. Two other petitions were put in by the bucket scavengers begging for a restoration of their system. One of the latter documents was from the employing scavengers, and the other emanated from the workmen. These men demanded that the Commissioners should give up the city again to their control, and allow them free range to poison the atmosphere at again to their control, and allow them free range to poison the atmosphere at sanitarians in the city have been looking for some improvement upon the bucket arrangement, and not until lately did any effective means present itself for doing this work. As soon as it was ascertained by the Board of Health that the excavating could be done by an air-tight process that was odorless the Board abolished the old and filthy method and introduced the new one. This system brought in by the Board of Health had already been tried in all the countries of Europe, and is now in working order in Cincinnati, Cleveland and New Orleans. The scavengers' complaint is that a number of them are thrown out of employment; but if every improvement in sanitary science introduced during the last quarter of a century had to be looked upon from the scavenger's point of view large cities like New York would not be in a safe condition at the present time. The ordinance passed by the Board, and which became law on the ist of September last, prohibits any methods for excavating vaults but an air-tight one that will be odorless, and the scavengers would do much better to invent an air-tight system than try to bring back upon the people an offensive and ruinous system of doing a very filthy description of labor. A communication was also received from the Board of Assistant Aldermen on the same subject, and the entire matter was referred to the Sanitary Committee.

The following is a comparative statement of contagious diseases for the two weeks ending October 12 and October 19, 1872:—

Patrick Reynolds, a man forty years of age, was esterday found dead in the stable at 411 West

Thirty-sixth street by James Rogers, living at 446 Ninth avenue.
